## Poplar Heights Recreation Association

---

Dear Members:

I am disappointed to report that last week our pool manager discovered our pool heater was inoperable. The board, pool committee members, and I have been working hard to solve the issue. Unfortunately, it looks like we need a new heater, which likely won't be installed until later in the season. The pool will still open May 15 for the bravehearted.

On a more positive note, you can now fill out your health screening forms online before coming to the pool. You can scan a QR code (posted near the clubhouse and tennis courts) or navigate to the form from the PHRA [website](#).

Regards  
Marc DeLuca  
PHRA board president
